At KC Pet Project, your support means the world to our organization and our pets.

Donations support our lifesaving mission by giving a gift to help Kansas City's pets. KC Pet Project is the only shelter committed to saving the lives of homeless pets in Kansas City.

Your financial support provides medicine, veterinary care, vaccines, food, and resources to help us save a record number of pets who have nowhere else to turn and to help keep pets and their people together.

Together, you can help us lead the way in creating a compassionate, safe community for pets and people in our community.
